Languages

Czech as native
language
Fluent English

Programming

♥ Python
PHP (Laravel), Java,
C++, LaTeX, Bash

Education

- 2012–now **Bachelor** of Computer Science Palacký University, Olomouc
Determine applications affected by upgrade
This thesis deals with the problem of finding running applications on GNU/Linux which need restart after system update.
- 2008–2012 High school SPŠ Bruntál
Specialization in information technologies

Experience

Part Time

- 2014–now **FMRI laboratory of Palacký University** Olomouc, Czech Republic
Linux Administrator
I take care of multiple workstations running on Debian and I am responsible for solving user issues. In spare time I develop new online register for examinations.
- 2009–2012 **Creative-Vision.cz** Bruntál, Czech Republic
Web Developer
I Worked as backend developer of web applications and mainly used technologies such as PHP and MySQL.
- 2009–2012 **SPŠ Bruntál** Bruntál, Czech Republic
Network Administrator
This was unpaid work experience. I was responsible for providing network connection to about hundred students in the hostel. It included running DHCP, firewall, data server, etc.

Projects

- 2013–now **Tracer** tracer-package.com | github.com/FrostyX/tracer
Tracer determines which applications use outdated files and recommends to restart them. This project started as my bachelor thesis.
- 2014 **Lazy Snake** lazysnake-frostyx.rhcloud.com | github.com/FrostyX/lazy-snake
Lazy Snake is a web based, easy to use and nice looking python profiler. It runs on OpenShift and was created as a competition project for Winter of Code organized by the DevConf.cz

Interests

Professional: programming, GNU/Linux, opensource

Personal: running, cycling, healthy lifestyle, reading
